

Who is Central Logic?

Central Logic is leading the innovation of healthcare software solutions by providing real-time visibility into a patient's journey through the care continuum. Our patient-centered care approach helps providers enhance quality, increase revenue, and reduce costs through improved efficiencies. Central Logic's "end-to-end" suite of comprehensive software solutions connects, captures, and reports on critical patient care issues by gathering information during all phases of care delivery.

What is Central Logic On Call Scheduling™?

Our SaaS-based on-call scheduling technology combines and distributes calendars and schedules automatically, and seamlessly integrates with Central Logic Transfer Center™ to provide the most robust solution in the marketplace. Health systems utilizing Central Logic On Call Scheduling™ achieve measurable accuracy and insight into critical on-call information which saves time, money and improves care.

Why Is Central Logic On Call Scheduling™ Needed?

Central Logic On Call Scheduling™ streamlines a hospital call center productivity and accuracy by updating all on call and scheduling information, as it occurs. Call centers are often the central drop zone for hundreds of monthly paper schedules that must be filtered, collated, and maintained as schedules change, health systems that use Central Logic On Call Scheduling™ achieve measurable accuracy and insight into critical on-call information to help make better clinical and business decisions through real-time visibility and accessibility by the Transfer Center.

How Can Central Logic On Call Scheduling™ Work for your Health System?

Central Logic On Call Scheduling™ integrates seamlessly with Central Logic Transfer Center™ and any other system. Our solution, centralizes physician and provider scheduling and calendar data making it visible to the entire hospital. The ability to access on call data in real time ensures that a transfer center is able to contact the right physician the first time, resulting in the best care for the patient. All data gathered becomes a part of a longitudinal record, providing valuable data and metrics through a variety of customizable and real-time, actionable reports allowing for enhanced schedule accuracy and recaptured monthly staff hours.

Scheduling Challenge and the Central Logic On Call Scheduling™ Solution

Operational Challenges	Central Logic On Call Scheduling™ Solution
 Duplication of efforts when creating and maintaining schedules.	Scheduling information for an entire hospital is entered only once and, when changes occur, they are immediately viewable to any users of the system.
 Lack of visibility into provider calendars	Customizable calendars and schedules that can be shared, combined, and redeployed giving real-time visibility to anyone in the system.
 Declining relationships with providers due to erroneous contacts	Online directory displays the complete staff and communication methods including integrated text paging and private contact numbers viewable by only select people.
 All communication needs to be HIPAA compliant.	Communications engine handles all pages, emails, and text messages with data encryption and full transmission security, ensuring complete HIPAA compliance.

Enhances scheduling accuracy by up to 30%

Recaptures an average of 125+ staff hours per month

View any scheduling changes as they occur
